MOKUZAI MAPLE

Maple is a precious hardwood which is extremely durable despite its flexibility. That's the reason why maple wood is good choice for parquet flooring and staircases. This durability makes it a preferred choice for the demanding applications in hotels and restaurants.

Due to its characteristics we leave MokuZai Maple untreated and in its raw, natural form. The color of the lamp base is light and has a very delicate texture which makes every lamp base one of a kind. The light wood of MokuZai Maple is an all-rounder: combined with a deco-sleeve in a bright color it creates an almost flowery decoration. But even classic deco-sleeve colors such as white, black or red are perfectly highlighted by the soft color of the wood and create a classy table-decoration.

MokuZai Maple Item-No. 32817948
Glass 48 Item-No. 30000048
Deco sleeve fresh lime Item-No. 6133
Liquid Wax Refill Item-No. 6100M

MOKUZAI ASH

Ash is known for its heavy weight and extremely durable wood. It has an even higher flexural strength than oak wood. In earlier days it was used for the construction of carriages and wagons.

To conserve its beautiful look we have added an oil-coating to the lamp-base which helps to reveal the reddish-white texture and creates an almost silky shine. Thanks to this finishing the wood appears a little darker. Light colors such as white or cream offer a beautiful contrast but also colorful deco-sleeves look just perfect.

MokuZai Ash Item-No. 32817848
Glass 47 Item-No. 30000047
Deco sleeve purple-metallic Item-No. 6307
Liquid Wax Refill Item-No. 6100M

**THANKS TO MODERN
LASER-TECHNOLOGY**

No matter whether you want to use your lamp base as an exceptional sign for your table reservations or if you would like to have your restaurants' logo engraved on it - almost anything is possible with custom-engraving. Thanks to the special laser-technology it's even possible to engrave delicate lettering. This sets almost no limits to your imagination. Contact us!

FSC® CERTIFIED PRODUCTION „MADE IN GERMANY“

Throughout the world „Made in Germany“ is a warrantor for high quality. But especially when it comes to wood processing it is an important quality characteristic. For this reason Mokuzai table lamps are only processed by FSC certified manufacturers. That way we can ensure the sustainability of our products made of renewable raw materials. Each and every lamp base is crafted by hand in numerous production- and finishing steps. The table lamps are being cut, skimmed, shaped, polished and oiled. This finish creates a high-grade look-and-feel.

Wood is a **natural material**

Since wood is a natural & renewable material each lamp base comes with its unique color and texture. Every lamp base is unique and individual. Due to ultraviolet light the wooden color can change with time.
